## Triathlon fabrics

### Micromesh

An advanced lightweight mesh knit fabric built for optimal moisture transfer, fast drying and good sun protection.

- 120gsm & 165gsm
- 100% polyester
- hydrophilic treatment
- Ideal for singlets

### Trimesh

An open weave lightweight fabric with high stretch, constructed for optimal air flow. During high energy activities this fabric keeps the wearer cool and dry.

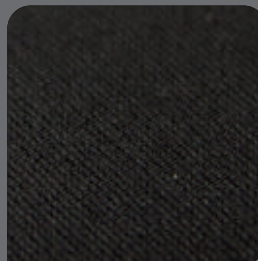

- 130gsm
- 100% polyester
- excellent for panelling
- ideal for panelling in singlet panels

### Polyester Spandex

The 4-way stretch of this bright white base tricot fabric offers extra comfort and freedom of movement to enhance performance.

- Moisture management properties make it resistant to perspiration stains.
- 220gsm
  - 80% polyester/20% spandex
  - excellent for high resolution images & rich colours
  - ideal for tri suits, shorts and singlets

### Nylon

This strong durable fabric provides optimal stretch for comfort while resisting damage when continuously rubbed against hard or rough surfaces.

- 233gsm
- 85% nylon/15% spandex
- black colour only
- durable stretch
- ideal for tri suits and shorts
